

# KAISER'S GOLD CUP JUST PLAIN PEWTER

## Big Tom McCarthy Arraigns Hohenzollern Crook for Offending Fake Trophy.

### \$5,000 MUG IS WORTH \$86

#### Bum Sport's Prize for Yacht Race Winner Nets \$125,000 for Red Cross Fund.

A new alarm was sent broadcast throughout the world yesterday to arrest on sight a lowlife named F. W. V. A. Hohenzollern, alias, Kaiser Bill, alias Meundog, alias Fred Wilhelm Hohenzollern, alias Bill the Boob, alias Bill the Cathedral Wrecker, alias Stupid, alias Gyp the Baby Stabber, alias Bill the Over Insured, alias Wilhelm the Incessant, alias Pathetic, alias German Measles, alias Friedrich Wilhelm Victor (long laughter) Albert Hohenzollern, 69 years old, of 224 Wilhelmstrasse (ring O'Leary's bell), Berlin, Germany, who even before yesterday had been "wanted" generally throughout the civilized world on the charge of being an international crook.

The newest charges against Hohenzollern, which were made yesterday by United States Marshal Big Tom McCarthy, are that the internationally notorious crook, who was last seen picking violets in front of the press gallery some weeks back on the German trenches, was also picking his teeth with the right point of his mustache, "did con, connive and attempt to be a bum sport and did with malice aforethought succeed in achieving same by getting, obtaining, securing and uttering one power mug, thinly plated with gold, and did, give and utter same as a trophy, to the Red Cross, to wit: The Emperor's Cup, which was a solid gold trophy, to be competed for in an ocean race of yachts, the prize being valued at \$125,000, but only to yachtsmen who at that time were inmates of Germany."

# 'HON.' T. L. REYNOLDS GAMBLER, VERDICT

## Self-Styled "Excellency" Held Guilty, Despite Strong Denials.

### LURED WEALTHY VICTIMS

#### Doctored Roulette Wheel Found in House—To Be Sentenced This Week.

Thomas L. Reynolds, whose house at 35 West Sixty-eighth street was raided April 28, was convicted by a jury before Judge McIntire in General Sessions yesterday on an indictment charging him with being a common gambler.

Reynolds' arrest followed shortly after sensational disclosures made to District Attorney Swann by one of the city's wealthiest business men. This man and his wife were sojourning at Palm Beach last winter when they met a Mr. and Mrs. Brown, who posed as being wealthy New Yorkers.

The Browns entertained lavishly. The acquaintance was renewed in this city early in April, the Browns invited the business man and his wife to lunch.

The Browns called for their guests in a luxurious limousine. They were on their way to the restaurant when Mr. Brown, who had been told that Reynolds was a gambler, asked rather apologetically if his guests would mind if he called on the restaurant before going to the restaurant.

"Why, of course not," rejoined the New Yorker and his wife and they were driven to the West Sixty-eighth street address, where they were ushered into a luxurious parlor. Reynolds, who was just about to partake of a little lunch.

"Delighted to meet them," Reynolds was delighted to meet the friends of Mr. and Mrs. Brown and invited them to lunch with him. They all sat down to a sumptuous meal. Reynolds carried little cards, but he was very fond of roulette and for his own amusement had provided himself with a roulette wheel.

While the ladies remained in the sitting room talking, Reynolds, Mr. Brown and his guest retired to a room up stairs. Reynolds was playing roulette. From the very first Reynolds won, first small amounts and eventually larger sums. After several hours play Reynolds became a little tipsy. The check, Reynolds said, was \$125,000. Reynolds refused. Then Reynolds, dropping the mask of respectability, blurted out that he did not want to play roulette. The check, however, had little effect on the New Yorker, who offered to call the police, whereupon he was arrested.

On the story being told to Mr. Swann an investigation was begun. Detective McQuade, posing as a wealthy lumber merchant, ran down the address of Reynolds and planned the raid, which was carried out by detectives of Inspector Costigan's squad on the very night when Reynolds was playing roulette. Reynolds was arrested. The check, Reynolds said, was \$125,000. Reynolds refused. Then Reynolds, dropping the mask of respectability, blurted out that he did not want to play roulette. The check, however, had little effect on the New Yorker, who offered to call the police, whereupon he was arrested.

# TAXICAB DRIVERS ASSIST TROOPS IN IMMORALITY

## Nine Arrested in Law Enforcement Bureau Campaign to Protect Fighting Men From Being Prey of Underworld.

### With the arrest in the last few days

of nine taxicab drivers the New York branch of the law enforcement bureau of the War Department has begun an active campaign to rid the city of a class of men said to be all too willing to assist soldiers and sailors on liberty in the enjoyment of any forbidden pleasures they may desire. The chauffeurs are specifically charged with procuring women for soldiers, a violation of subdivision 48 of section 887 of the Criminal Code.

The offensive against lawless chauffeurs is only one phase of the Government's efforts, conducted through the law enforcement bureau, to make New York a healthy place of recreation for men in the service. Within less than a month more than 300 persons, charged with offenses ranging from bootlegging to much more serious crimes, have been apprehended by officers of the bureau, of which Capt. T. N. Pfeiffer is the head.

Every effort is being made to note and suppress the activities of the men in whose hands rests the ultimate safety of the nation, and what with the work of the police and Assistant District Attorney Swann, the underworld is being night rounded up and its spurious growths on the public policy, in addition to the equally effective if less dramatic achievements of the law enforcement bureau, is being made safe for democracy.

One of the taxi drivers, Walter J. Brown, was arrested yesterday. He was charged with procuring women for soldiers. He was charged with procuring women for soldiers. He was charged with procuring women for soldiers.

# BOY SCOUTS SHOW SELL IN GAMES

## First Aid Race Is Won by Two Members of Troop 798.

### Cheering each of the events with the

wild enthusiasm, about 1000 picked Boy Scouts from the troops of this city, had their first general outdoor meet on the Sheep Knoll in Central Park yesterday afternoon. The celebration started with a parade which formed at Washington Square, the column marching up University place to Twelfth street where it turned west to Eighth avenue and then south to the Sheep Knoll. The first event was a walking match composed of a junior section for boys from twelve to fourteen and a senior section for boys from fifteen to eighteen years of age. "Tom" Moran of Troop 340 won the junior division race and Jerome Lawler of Troop 553 the senior boys. The race was a close one, but Moran won by a few seconds. The trophy was a silver cup and a bronze medal.

Following the walking match was a relay race. The boys were divided into teams of four. The first team to finish was the team from Troop 798. They won the relay race by a wide margin. The trophy was a silver cup and a bronze medal.

The next event was a first aid race. The boys were divided into teams of four. The first team to finish was the team from Troop 798. They won the first aid race by a wide margin. The trophy was a silver cup and a bronze medal.

# CLOUDS HIDE SUN'S ECLIPSE AT DENVER

## Yerkes Observers' Elaborate Preparations of No Avail in Obtaining Data.

### GOOD RESULTS IN OREGON

Observers at Baker Rewarded by Opportunity for Fine Photographs.

Denver, June 8.—Astronomers from the University of Chicago and other observatories who gathered here today to make observations of the local eclipse of the sun found that their elaborate preparations had gone for naught. Heavy clouds covered the sky during the greater part of the eclipse.

The scientists swallowed their disappointment and desisting their instruments gathered in the observatory yard to observe the color effect on the clouds of the approaching darkness. When the eclipse was total, it was so dark that automobile headlights were visible on the mountains many miles to the southwest.

Dean Herbert A. Howe of Denver University, who directed the work here, said the observations possible today were of little importance as the eclipse data might be obtained only by observations made when the eclipse was total.

At Baker, Ore., June 8.—Those devoting their time to study the eclipse today were amply rewarded. The wonderfully colored glow of the inner circle of light, the "diamond ring" effect, was seen by many observers. The sun was of maximum sunspot type, with the glowing and pulsating light nearly equally diffused about the sun surface, whose prominences also were plainly visible.

Scientific observations here were successful. Belief was expressed that the observations made today were of little importance as the eclipse data might be obtained only by observations made when the eclipse was total.

# PROTESTS FROM SCULPTORS TO REVOKE TWO

## Others Cause Government to Revoke Two.

### Medal of Honor and Distinguished Service Cross Not Appropriately Made.

Protests, chief among which was that of the National Sculptors' Society, have resulted in the Government's decision to change the design of the Distinguished Service Cross and Medal of Honor, rewards recently authorized by Congress for American heroes.

Howard Wood, curator of the American Numismatic Society, received a letter from the War Department saying that the first designs were obsolete and would be called in. Augustus Lukeman, secretary of the sculptors' organization, is the author of the statement that 200 of the medals and crosses were to be recalled and some of them awarded, when an order was sent out to recall them.

There was a report that Gen. Pershing did not like the design. This could not be confirmed. The sculptors, medal designers and artists of New York characterized the present designs as cheap, commercial, unbecoming and inappropriate. The reason being that the cross is ecclesiastical rather than military in its appearance.

Sculptors Are Aggrieved.

Steps are being taken by American sculptors to bring to the attention of the Government the fact that they feel somewhat aggrieved because not one of them, either individually or as a society, was consulted regarding the design. The National Sculptors' Society has gone on record as being opposed to the manner in which a commercial firm in Philadelphia, Mr. Lukeman, discussing the design awards, said:

"Senator Chamberlain furnished the bill which provided for the arrangements for them in the hands of the Secretary of War. A firm of silversmiths in Philadelphia was selected to design the medals and crosses. The design was not submitted to the National Sculptors' Society, which accepted it and had 200 crosses immediately struck off. These were sent to the War Department, but were severely criticized from an artistic standpoint that they were ordered returned and a duplicate of the first design, slightly altered, was sent to the War Department. The duplicate is ready the first 200 medals will be withdrawn."

# THE Sun Calendar

## THE WEATHER.

For eastern New York, fair to-day and to-morrow; slowly rising temperature; moderate west winds.

For New Jersey, fair and slightly warmer to-day; to-morrow fair. Moderate westerly winds.

For northern New England, fair to-day and to-morrow; slightly warmer in the interior. Moderate westerly winds.

For southern New England, fair to-day and to-morrow; slightly warmer in the interior. Moderate westerly winds.

For western New York, fair and somewhat warmer to-day and to-morrow; moderate westerly winds.

WASHINGTON, June 8.—The weather has been fair during the past twenty-four hours except in Florida, along the east coast of Texas and Minnesota, where there have been thunder showers and local rains.

The temperature has prevailed generally east of the Mississippi River. Fair to warm in the North. Fair to warm in the South. Fair to warm in the West. Fair to warm in the East.

The temperature in this city yesterday as recorded by the official thermometer, 51° at 9 A. M., 55° at 1 P. M., 60° at 5 P. M., 58° at 9 P. M., 55° at 11 P. M., 52° at 1 P. M., 50° at 3 P. M., 48° at 5 P. M., 45° at 7 P. M., 42° at 9 P. M., 40° at 11 P. M., 38° at 1 P. M., 35° at 3 P. M., 32° at 5 P. M., 30° at 7 P. M., 28° at 9 P. M., 25° at 11 P. M., 22° at 1 P. M., 20° at 3 P. M., 18° at 5 P. M., 15° at 7 P. M., 12° at 9 P. M., 10° at 11 P. M., 8° at 1 P. M., 5° at 3 P. M., 2° at 5 P. M., 0° at 7 P. M., -2° at 9 P. M., -5° at 11 P. M., -8° at 1 P. M., -10° at 3 P. M., -12° at 5 P. M., -15° at 7 P. M., -18° at 9 P. M., -20° at 11 P. M., -22° at 1 P. M., -25° at 3 P. M., -28° at 5 P. M., -30° at 7 P. M., -32° at 9 P. M., -35° at 11 P. M., -38° at 1 P.
